### Contents of Shipment

To minimize shipping delays enter the Spartek Systems serial number into the RMA forms and on all corresponding customs and shipping paperwork.

Quantity	Spartek Systems Serial Number	Spartek Systems Item Number	Failure / Issue / Reason for Return / Customer Product ID <i>Please include data, reports and/or additional information with your RMA that will assist with the repair</i>

### Additional Comments

### Terms and Conditions

- A minimum fee of \$150.00 will be applied to each tool returned to a Spartek Systems facility for the purpose of repair and/or calibration estimates. If the repair and/or calibration estimates are approved the minimum fee will be applied to the overall charges.
- In the case where the estimate is deemed too expensive and is not accepted, the tools will be returned to the owner "as is" after payment of the minimum fee has been confirmed. In the case of warranty work, these fees will be waived.
- All shipping costs, import duties and taxes are the responsibility of the sender. All courier shipping documents must indicate (be marked) as "Bill Sender" as Spartek Systems will not import any packages with any associated fees. The equipment owner should mark the shipment as "temporary export" for all equipment sent in for service/repair to avoid unnecessary fees/costs
- Spartek Systems considers E-mails an official form of written communication. Three E-mail attempts will be made to remind/notify the owner of the equipment that tools may be scrapped if the minimum fee payment and return instructions are not received by a specified date.
- If returning failed equipment, please E-mail RMA prior to shipment of equipment and include a printed copy of the RMA with the shipment.
- Spartek Systems expects to receive shipping instructions for repaired, non-repaired and/or calibrated tools within (90) ninety days of written communications from Spartek Systems stating the tool is ready for return. If those tools are not collected or approved for shipment after the ninety days, Spartek Systems may scrap and/or disassemble the tool at its discretion.

## Return Authorization Form

- ✓ Please review the **Terms and Conditions** before completing the shipment!
- ✓ You can E-mail the completed form to one of the repair facilities below by clicking the button beside the facility of choice.
- ✓ The completed form will be sent to all of the appropriate Spartek Systems contacts at that selected facility.
- ✓ Alternatively you can print the document and fax it to the appropriate facility.
